OBJECTIVE

Hardworking man, never satiated, but always want to know more and deeply understand subjects at their core. Paying attention to detail, seeking consistency and clear patterns.

Hobbies: reading and listening to lectures about history and archeology and human physiology, listening to classical and romantic music, and playing tennis.

I like statistics and and everything connected to brain sciences and the human body (physiology, biochemistry, etc.)

SKILLS

- Highly curious, perfectionist, consistent, laborious and industrious, honest, systematic, strict, punctual, and motivated. Appreciate hard work over so called skills
